

	SUPIKA KRITSANEEPAIBOON
	Assistant Professor
	Section of Pediatric Imaging Division of Diagnostic Radiology Department of Radiology Songklanagarind Hospital Faculty of Medicine Prince of Songkla University Thailand
<p>Dr. Kritsaneepaiboon is one of the two pediatric radiologists working in Southern Thailand. She works at Songklanagarind Hospital where she performs all imaging studies in children from head to toes. She is responsible for all visiting pediatric patients, and lecturer of pediatric radiology for the Medical Student and Resident Training Program. Her hospital is a tertiary care facility and is the largest hospital in Southern Thailand. It has 1,000 beds and averages 3,500 outpatients per day including adults and pediatric patients. The hospital is the major teaching institution for medical students, nursing and public health in Southern Thailand. Her researches and publications are in the fields of all pediatric imaging and radiation doses.</p>
